SUMMARY

Gameplay and AI Programmer with experience in Unreal Engine 5 and C++. Seeking to further develop my skills in game architecture, optimization, and AI decision-making. Focused on creating robust, efficient, and scalable systems with a mindset of continuous learning.

SKILLS

Languages: C++, C#, Python

Technologies: Unreal Engine 5 (C++ / Blueprints), Unity, GitHub, AI Behavior Trees, Rider, Visual Studio

PROJECTS

Unreal Engine 5	AI/Combat System Prototype (Work in Progress) Implementation of basic gameplay systems and AI behaviors. Developed a robust and scalable framework to serve as a foundation for future projects.	C++
Unreal Engine 5	Into the Deep: An Underwater Exploration Simulator Simulator where the player controls a submarine robot combining exploration and arcade mechanics. Developed resource management and a sonar system to discover points of interest.	Blueprints
Unreal Engine 5	4Trouble Game jam project on "Collective Intelligence vs. Collective Madness". Developed simultaneous control of four characters, each with unique abilities, creating a cooperative and strategic gameplay experience.	Blueprints

EXPERIENCE

2/2024 – 5/2024 Scholarship Holder	Gameplay Programmer - Lead programmer for a VR minigame in Unreal Engine, optimizing Blueprints for improved performance. - Support programmer on a horror/escape room game in Unreal Engine. - Lead programmer of a 2D minigame in Unity. Unreal Engine 5 / Blueprints	MindTrips
---------------------------------------	---	-----------

CERTIFICATIONS

7/2025 - 9/2025	Professional Game Development in C++ and Unreal Engine Tom Looman
6/2024 - 8/2024	Programming Blueprints in Unreal Engine from Beginner to Professional Carlos Coronado

EDUCATION

2018 - 2025	Bachelor in Game Design and Development Focused on programming, design, and development of gameplay systems using Unreal Engine and Unity.	Universitat Jaume I
-------------	--	---------------------

OTHER EXPERIENCE

2011 – 2018	Various Warehouse and IT Technician Jobs Work experience not related to development, included to show responsibility and work ethic.	Onda and Alcora
-------------	--	-----------------

SOFT SKILLS

Teamwork, Problem-solving, Adaptability, Time Management
